

Aluminium gates with integrated LED lighting system

High quality design and manufacture

The Collection of Aluminium Night & Day® swing gates and pedestrian gates are equipped with a unique high quality LED lighting system. Using your Smartphone or tablet you will be able to manage and control the LED lighting of your gate, a selection of one or more colours among an unlimited choice, personalised sequences of colours, that you can change at any time. Placed in the gate rebate in a perfectly sealed box, your lighting can be designed from several patterns that are laser cut into aluminium sheets.

The key points of the system

- . LED system with multiple lighting (unlimited choice of colours, changeable at any time). Ability to create and customise to many colour sequences
- . Management and control of LED lighting by smartphone or tablet
- . Patterns laser cut into aluminium sheet
- . 10 patterns to choose from
- . High quality waterproof protection with 33.2mm safety glass and black EPDM seal
- . Ability to opt for a simplified version with 1 colour and 1 remote control for the on / off function
